

Visit to innovative center

As an important part of the B.Ed. curriculum, it is necessary to visit the innovative school. In this, by visiting the school in Sangli district, the B.Ed. trainees studied the various curriculum methods of the place. The office of the school building. The school management. The school library. Facilities and facilities in the school Ladies toilet in the school Gents toilet in the school as well as book facilities in the school uniform Help given to poor children as well as help given to retarded children Help given to smart children Help given to scholar students as well as laboratory library Information about all these departments B.Ed. training Meaning and studied the innovation of that place. In this, the new activities implemented by them are really exciting and inspiring. This helps to inculcate innovation in the minds of students. Also, various new centers in Kolhapur area, new centers, universities, Shivaji University, Kolhapur, new center, library, language building, nanotechnology. Students visited Center Biotechnology Center Main Building Exam Center to learn about the program of the place and enhance their knowledge and understanding by learning about how new technologies are used.

School Tour

School Trips and College Trips are organized as part of practicum in B.Ed. curriculum. In college trips, trainees in Semester 4 choose a convenient place where they can make an educational visit and familiarize the students with the area and see what is new in that place so that the students can get fourth In order to get the knowledge and experience of how to organize a trip, how to plan a trip, how to manage a trip department, how to fulfill one's responsibilities, the trip is planned for the students of Sem. An attempt is made to educate young children

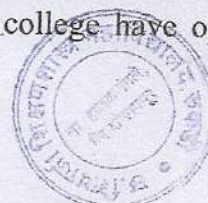

by organizing field trips to nearby places, such as a fort, a museum or a mountain, a historical place or a library.

Filed Visit

In field engagement i.e. field visit, the students get information about the place by visiting a center and on the basis of this information, it helps the students to understand the different activities that are carried out at that place or how the operations of that place are done. A field visit is organized for the students to have knowledge or understanding of this. In this field visit, different schools around the district or outside the district are selected for different centers.

Social Community experience

In semester number three of B.Ed. course, some projects are related to social level, in this practical group work related to social work is required. The students of B.Ed. part three have to do practical work about getting information about the program. In this, a village panchayat, an educational institution, a small and medium sized enterprise, a women's industry, a self-help group or any organization related to the society, to get detailed information about that place, to take figures and to get information about that place. The task of getting information about the work is done by the trainees in which groups are formed and visit according to that group and group work is done at that place by getting information about the different programs happening in the society and writing a combined report is given a total of 50 marks. While this has to be done in groups while some work has to be done individually, it is seen that the trainees of our college have opted for institutions in rural areas
